<u>Construction Scheduling:</u>		
(1) Anticipated Date of Site Work Commencement:		
(2) Anticipated Date of Certificate of Site/Subdivision Completion:		
(3) Anticipated Date of Building Certificate of Occupancy:		
<u>Job Valuation/Cost of Construction:</u> \$		<input type="checkbox"/> See Attached Cost Estimate
<u>Description of Work:</u>		

PERMIT FEE = 1 ½% OF JOB VALUATION OR \$100.00 (whichever is greater)

Example: \$50,000 x 1.5% = \$750

- A Site Improvement Permit is required for site construction (other than building/structure). The permit is typically issued 48 to 72 hours after a Pre-Construction Conference is held. In addition to the Site Improvement Work Permit the following permits may apply to your project: Arbor, Demolition, Sign, Wall (or other structural work), Fire Protection System, Electrical, and Solid Waste & Recycle Enclosure & Pad.
- The Site Improvement Permit shall be considered an Arbor Permit for the purposes of tree removal, alterations, or trimming when such work is indicated on the approved site plan. The Site Improvement Permit shall also be considered a Right of Way Permit when work within City rights of way is indicated on the approved site plan.

- A Job Valuation/Cost Estimate and site plan or DRC approval must be submitted with this application.
- A Pre-construction Conference is mandatory before issuance of the Site Improvement Permit and commencement of the development; however, for small scale improvement including minor site plan revisions the Public Works Development Coordinator may allow the site contractor to schedule an on-site pre-construction meeting with the City’s Site Inspector in lieu of the standard formal Pre-construction Conference. See Page 2 for the Request for Pre-construction Conference form which must be submitted with this Site Improvement Work Permit Application.
- Issuance of a development related permit (e.g., Site Improvement Permit, Building Permit, etc.) by the City does not in any way create any right on the part of an applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the municipality for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.
- **GM STAFF TO COMPLETE THIS PARAGRAPH:** Site work shall be consistent with the Combined Prelim/Final Site Plan / Final Site Plan / Site Plan Revision, Project # _____ - _____ date-stamped “RECEIVED _____” and with stamp “DRC APPROVAL _____”.

REQUEST FOR PRE-CONSTRUCTION CONFERENCE

A Pre-construction Conference is a prerequisite to issuance of a Site Improvement Permit.

It is the responsibility of the Owner/Developer to meet the following conditions before a Pre-construction Conference is scheduled. Since all applicable agency permits must be submitted to the City prior to commencement of development under a Site Improvement Permit, it is advisable that agency permits be submitted with the Request for Pre-Construction Application. Please indicate in the checkboxes below if the condition is met or not applicable, and which agency permits are being submitted with this application. Copies of all permits must be posted on the site with the City's inspection placard. Failure to submit an agency permit prior to the commencement of development under a Site Improvement Permit may result in the City's issuance of a Stop Work Order, fines, and/or other penalties.
